---

Passionate and experienced Software Engineer and Typescript Backend Web Developer, proficient in building robust web applications and services. **Specialized in Javascript ecosystem, particularly Node.js backend development**, with a track record of delivering high-quality solutions. Eager learner, dedicated to honing both technical and soft skills, committed to excellence in web development.

Work Expertise

Typescript · Node.js · NestJS · Prisma · MongoDB · React.js · REST API · Jest · GitHub

---

Work Experience

<u>Intermediate Backend Javascript Developer @Combyne Ag</u> | <u>Remote, Canada</u> [MAR 2023 - MAR 2024]
- With the help of 2 teammates, built Combyne Connect API from scratch using NestJS
- Wrote unit, integration and e2e tests for Combyne Connect API using Jest
- Wrote documentation for Combyne Connect API using Swagger
- Wrote "black box" automated test for Combyne Connect API using Mocha and Chai

Key achievement
✔ Built from scratch and deployed the first version of Combyne Connect API

Main technologies used at Combyne Ag
Typescript · Node.js · NestJS · Prisma · AWS Cognito · Swagger · Jest · REST API · GitHub

<u>Fullstack Web Developer @YASSIR (YC W20)</u> | <u>Remote, Algeria</u> [MAR 2022 - FEB 2023]
- Developed new features and fixed bugs on the "Referral" project using Express.js
- Wrote documentation to help new developers integrate quicker into the team
- Wrote automated tests for the REST API using Postman
- Participated in the technical recruitment process of new developers

Key achievements
✔ Pushed the "Referral" project's advancement status from 50% to 80% completion
✔ Successfully hired 3 Node.js backend developers

Main technologies used at YASSIR (YC W20)
Typescript · Node.js · Express.js · MongoDB · Mongoose.js · Swagger · REST API · GitHub

<u>Javascript Developer @Data Impact</u> | <u>Remote, Algeria</u> [SEP 2021 - JAN 2022]
- Worked with legacy Javascript code to maintain a proper execution of the dashboard
- Helped Product Owners detect bugs and fixed them while cleaning the code
- Participated in releases to the pre-production and production environments

Key achievements
✔ Detected a hidden bug messing up the dashboard's calculations, and fixed it
✔ Successfully hired 1 Javascript developer

Main technologies used at Data Impact
Javascript ES6 · Git · BitBucket
